Then there is still another Yucca, at the Eastern base
of the Sierra Nevada with radical leaves & tall
upright flowering stems, growing in dense masses.
Somebody must make a specialty of this, as there
things on the spot who can draw accurately. Your
European notes would be very important in settling
the synonomy — S. Rock on — and get as many
drawings as you can of the California N American &
Where else do Yuccas & Agaves grow?
